

Night trains

Nowadays branded trains offer a high standard service, design and comfort.

Each train is decorated in a unique style reflected both in its exterior and in its interior. Each has its unique name displayed on the side of the carriage or on the route indicator. Most trains are air-conditioned and have electric heating and TVs. Some also have Internet connections and cable television.

All the attendants have obtained the special qualifications needed to work on branded corporate trains and wear uniforms individually tailored to each employee. Staff is always available to offer passengers hot tea or coffee, make the beds, and provide all necessary information en route and hand out periodicals and safety belts to passengers. Each branded train also offers a range of additional paid services.
